### Experience

#### ATELIER E-commerce Project

- ATELIER – A full-stack e-commerce platform built with TypeScript, offering a seamless shopping experience for ladies, gents, and kids. Features include modern UI, robust state management, and advanced product filtering for enhanced user experience.
- **Project Link:** <https://ateliieerr.vercel.app>

#### ShareHub – Real-Time Collaboration Platform

- Built a real-time collaboration and room management platform supporting instant messaging and audio/video connectivity.
- Designed a secure Node.js/Express backend with MongoDB ensuring high fault tolerance and dynamic room management.
- **project link:** <https://sharehub-client.vercel.app/>

#### Mini Social Media App

- Developed a full-stack social media web application delivering dynamic user feeds with post creation, comments, and likes.
- Integrated secure JWT authentication and bcrypt password encryption with protected REST API routes.
- Optimized database queries and backend security to ensure high performance and seamless UI integration.
